CONTENIDO

1.Manual de instalación del grifo de lavabo ----- (1-8)

◆ Installation and maintenance matters

1. Check the accessories list to verify that all parts are complete in this package.
2. Do not disassemble the main body by yourself.
3. Connect inlet pipes to supply valves.
4. Make sure inlet pipes and supply valves have no impurities and are cleaned, with no impurities in the pipeline.
5. After installation, check all joints for leakages.
6. Do not leave the rain shower system exposed to a severely corrosive environment.

Do's

1. In order to keep the mixer surface bright, please clean the mixer regularly.
2. Rinse the faucet with clean water and wipe it with a soft cotton cloth.
3. Use one of the following cleaners to remove dirt from the surface:
a. Mild liquid cleaner.
b. Colorless glass cleaner and powder cleaner that do not cause abrasion and can be dissolved completely.
c. Polish liquid that does not cause abrasion.

Don'ts

- a. Avoid using cleaning powder, harsh cleaning chemicals, brushes and coarse cloth to prevent scratching and friction.
- b. Do not use acid cleaners to clean the faucet as they may cause surface corrosion of the faucet. If the faucet is exposed to harmful acid substances, please rinse it immediately with water.

◆ Bathtub Faucet Installation

◆ Installation du robinet de baignoire

Step 1

Paso 1

Faucet Body through the basin hole. Install Faucet Body Gasket and Mounting Nut in sequence and tighten the nut with a wrench. Press and hold the button on the Connect hose head to connect to the body fitting

Pase el cuerpo del grifo a través del orificio del lavabo. Instale la junta del cuerpo del grifo y la tuerca de montaje en secuencia y apriete la tuerca con una llave. Presione y mantenga presionado el botón en la cabeza de la manguera de conexión para conectar al accesorio del cuerpo.

Step 2

Paso 2

Remove the Handle and put them on the basin holes. Connect the Control Water Bodies with Handle and Handle rod from the above of the basin holes.

Finally install the handle gasket and handle nut and use screws tighten them. (Not to disassembled the valve by yourself, otherwise leakage will occur.)

Retire la manija y colóquela en los orificios del lavabo. Conecte los cuerpos de control de agua con la manija y la varilla de la manija desde arriba de los orificios del lavabo.

Finalmente, instale la junta de la manija y la tuerca de la manija y utilice tornillos para apretarlas. (No desmonte la válvula por su cuenta, de lo contrario, se producirá una fuga.)
